

56521-3X000 Steering Rack Bushing For KIA HYUNDAI ELANTRA 2010-2017

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 56521-3X000
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Payment Terms: D/P, L/C, T/T

Product Specification

- Product Name: Steering Rack Bushing
- Materials: Rubber
- Size: Standard
- Warranty: 12 Months
- Highlight: 56521-3X000 Steering Rack Bushing, Steering Rack Bushing For KIA

Product Description

Product Description:

A steering rack bushing is an essential part found in a vehicle's steering system. It can be found specifically in the steering rack, which plays a crucial role in translating the steering wheel's rotation into the necessary movement to turn the wheels of the vehicle.

Features:

Vibration Dampening

Our steering rack bushing effectively absorbs and reduces vibrations and shocks that occur during steering maneuvers. It helps to isolate the steering rack from the chassis, minimizing the transmission of vibrations to the steering wheel and enhancing overall driving comfort.

Improved Steering Response

The steering rack bushing plays a vital role in maintaining the proper alignment and stability of the steering system. By reducing play and movement in the steering rack, it ensures a more direct and responsive steering feel, allowing for precise control and maneuverability.

Durability and Longevity

Our steering rack bushing is constructed from high-quality materials, such as rubber, that are engineered to withstand the demands of daily driving. It is resistant to wear, tear, and degradation caused by exposure to road debris, chemicals, and weather elements, ensuring long-lasting performance and reliability.

Enhanced Safety

A worn or damaged steering rack bushing can affect the stability and responsiveness of the steering system, compromising safety. By replacing the bushing with our high-quality product, you can restore the integrity of the steering system, ensuring optimal control and reducing the risk of accidents.

Technical Parameters:

Product Name	Steering Rack Bushing
Materials	Rubber
Weight	1
Material	Metal/Plastic/Rubber
Warranty	12 Months
Size	Standard

Applications:

High-Quality Steering Rack Bushing: Essential for Your Vehicle's Steering System

When it comes to your vehicle's steering system, every component plays a crucial role in ensuring a smooth and safe driving experience. One such component is the steering rack bushing, and at our company, we take great pride in providing the best quality solution for your steering needs.

Our steering rack bushing is engineered with precision and built to last. It is designed to provide stability, reduce vibration, and deliver smooth and precise steering control. By investing in our premium steering rack bushing, you can restore the stability, responsiveness, and overall performance of your vehicle's steering system for a seamless driving experience.

Experience the benefits of our high-quality steering rack bushing firsthand - from smoother steering and improved control to enhanced safety on the road. Our steering rack bushing is built to withstand the test of time, ensuring long-lasting durability and reliability for all your steering needs.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
